To,

The Secretary

Sahayog Care for You

Mast Bhuvith 5 years old boy registered with our hospital with **MRN. 201854** is diagnosed to have **T Acute Lymphoblastic Leukaemia** intermediate risk in February 2026. He is receiving **COG AALL 0434** Protocol consisting of intensive chemotherapy for 6-7 months followed by maintenance chemotherapy over 24 months. He will benefit from treatment with a good chance of cure (75%).

The estimated cost for the entire treatment is Rs. 10,00,000 (Rupees Ten Lakh Only). The parents are from poor socio- economic condition and require financial assistance for the treatment. Kindly do the needful.
